ABOUT

## FROM CONCEPT TO COMPLETION

Cavalier Galleries, Inc., established in 1986, believes in working with its clients to create art installations that convey the company's image and public relations goals in a manner that is aesthetically consistent with the overall project.

This is accomplished by working with the project's architects, designers, and owners. We first establish a direction or theme for the artwork and then establish a budget.

Cavalier Galleries' art consultants then focus on creating a presentation of the highest quality works available within these parameters for the clients to consider.

We have had great success with site specific commissions, a process that allows our clients to have unique works created specifically for their space.

For more than 30 years, Cavalier Galleries has provided the finest artwork to corporations, developers, museums, and municipalities throughout the country including: "Palisades Village, Palisades, CA" "Intercontinental" New York Barclay Hotel, New York, NY; New England Development, Boston, MA; Cousins Properties, Inc., Atlanta, GA; and more.
